ROTATING STORAGE SYSTEM

Automatic filing & storage system consisting of rotary shelves for the storage and distribution of documents or light materials.

It is the ideal solution for limited spaces and in conditions where rapid consultation is required.

A great variety of materials can be stored thanks to the shelves set up. Materials are provided to the operator in fast and ergonomic way as the rotary shelves always follow the shortest path to reach the operator

- **OFFICE SECTOR & INDUSTRIAL LIGHT MATERIAL**:

  light line 130 kg max. shelf load capacity

- **INDUSTRY SECTOR**:

  heavy line 300 kg max. shelf load capacity
